BREAKING NEWS

Eagles co-founder Randy Meisner has died at 77

Early Talent for Football

Quinn was born in Toronto, Canada, on August 11 1995, to parents Bill and Linda Quinn - who had four children.

As their parents were keen rugby and basketball plans, sport was a big part of Quinn's upbringing and they began playing football from the age of six.

Quinn is said to have asked their parents to set them with football lessons after watching their older sister playing. Alongside this, they also played hockey, swam and took part in skiing competitions.

Speaking to **Toronto.com** in 2013, Quinn said: 'My parents put me in dance classes: ballet, jazz, hip-hop – and I hated it. But I always had a fondness for soccer. That was number one.'

But while sports gave Quinn huge joy, they were struggling with their gender identity behind the scenes.

Speaking to **The Torono Star** in 2020, Quinn recalled: 'People have feelings, those aren't new.'

Struggling with gender identity

Quinn also told the publication that the private girls' school they attended attempted to bring discussions of gender identity and sexuality into classrooms.

However, they said it took meeting other people within their community to understand the true extent of how they were feeling.

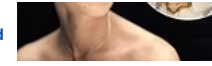

From 2013 to 2018, Quinn was enrolled at Duke University in Durham, North Carolina - where they studied biology.

During this time, they were part of the Duke Blue Devils team - where they played as a defender and midfielder.

In 2017, they were awarded the Atlantic Coast Conference Midfielder of the Year award.

What's more, they also Quinn also represented Canada at the 2016 Rio Olympics when they were still at university - winning bronze for their national team.

Pictured: Quinn shared this image of themselves relaxing in Volunteer Park in Seattle, months after their top surgery

At university, Quinn also took women and gender studies classes to try and come to terms with how they were feeling.

They added: 'I'm not saying that it was completely linear for me; I think every day I was still exploring how I express myself in terms of how I perform gender but I think language is so significant and being able to pinpoint it can bring so much comfort to people and to entire communities.'

They previously told the **BBC**: 'We live in a world that is so binary and I have been receiving messages ever since I was a young child about how I should act, how I should portray myself and how I should be and anything that deviated from that was essentially wrong.'

BREAKING NEWS**Eagles co-founder Randy Meisner has died at 77**

most for many years, I did always wonder when I'd come out publicly.

Instagram is a weird space. I wanted to encapsulate the feelings I had towards my trans identity in one post but that's really not why anyone is on here, including myself.

So INSTEAD I want to be visible to queer folks who don't see people like them on their feed. I know it saved my life years ago. I want to challenge cis folks (if you don't know what cis means, that's probably you!!!) to be better allies.

It's a process, and i know it won't be perfect, but if I can encourage you to start then it's something.

- 1) put your pronouns in your bio
- 2) follow/ listen to other trans/nb voices (@janetmock , @ashleemarieston , @alokvmenon to name a few :))
- 3) practice using gender neutral pronouns with friends/ in a mirror
- 4) vote
- 5) start to catch yourself making assumptions about people in public/ bathrooms/ any space

After they came out, Quinn discussed how gendered football is with their local paper.

They said: 'I think that, for me, [soccer] has been so great to have in this process, but as well it is such a gendered space ... and I don't think it's completely necessary.'

They continued: 'We have such rigidity in terms of our gender and we're excluding trans women, we're excluding cis women, like in terms of Caster Semenya, because they don't fulfil this white, colonial idea of what it is to be a woman.'

'When we get back to why we're all here and why we're all playing sports, it's to celebrate physical excellence.'

What's more, the player also paid tribute Harrison Browne - who was the first transgender professional hockey player.

Describing how their story 'saved Quinn's life', they wrote on Instagram: 'Just in general, I was having a really difficult time doing day-to-day things, going to the washroom, whatever else.'

'You're ridiculed and humiliated on a consistent basis, unfortunately, and so I think for me ... they really did give me hope during that difficult time in my life. I wanted to be able to give that to other people who were confused ... their own hope for the future.'

Facing backlash

However, not everyone is enthusiastic about Quinn's historic moment at the World Cup - including Piers Morgan, who is famous for his verbal battles with trans activists.

Piers Morgan has angrily asked how a non-binary and trans player can participate in the Women's World Cup

On Wednesday, the outspoken broadcaster said Quinn shouldn't be allowed to play in the tournament because they don't identify as a woman.

'How can you be transgender and non binary?' asked the panel on his Uncensored talk show. You both know this is such crap.'

Morgan went on to say: 'She's a biological woman playing against other biological women. If she doesn't identify as a woman, why is she playing in the FIFA Women's World Cup?

'They don't qualify for the Women's World Cup because they used to be a woman. Now they don't want to be a woman so now we have to call them they for being a transgender even though they are non-binary and they're playing in the Women's World Cup and we're all supposed to go, 'Well done Quinn. What a moment!'

Since transitioning in 2020 Quinn has been allowed to continue playing professional women's soccer on the basis of their sex assigned at birth, and has no plans to increase their testosterone levels while competing.

Campaigning for trans rights in sport

Earlier in the year, Quinn had participated in Playing for Pride - and called out the 'policing of trans bodies' in the sports world in a promotional video for the LGBTQ+ campaign.

In June 2021, Quinn publicly thanked their peers for their support after they came out as transgender.

BREAKING NEWS**Eagles co-founder Randy Meisner has died at 77**

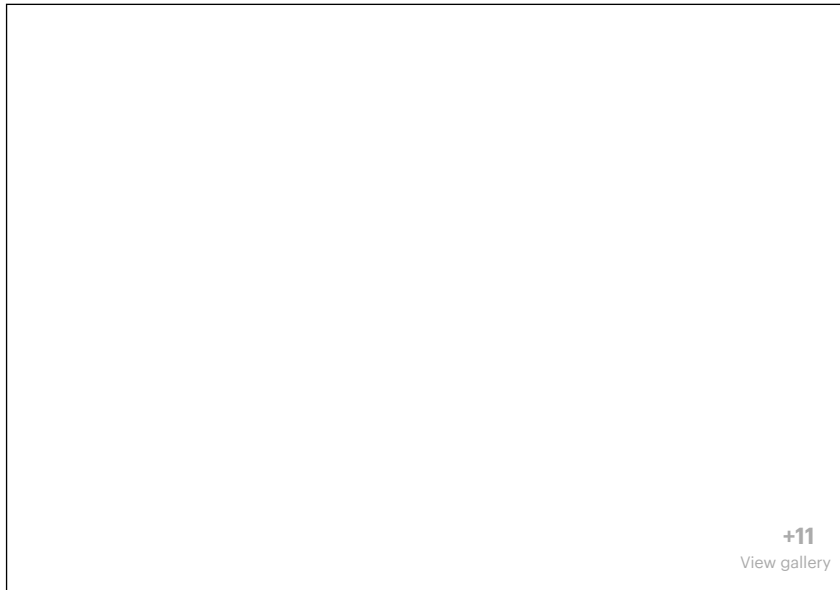

Meanwhile, Canada coach Bev Priestman couldn't be more glowing in her praise of the 27-year-old.

She recently said: 'I'm really proud of what Quinn's doing to raise awareness and make, I guess, this world a much more inclusive place.

'When you talk about why (to) do these things, it is a bigger purpose. I think that's really important.'

Meanwhile, Quinn's Canadian team-mates are fully-behind their trailblazing efforts to normalise trans and non-binary people across football and society.

Christine Sinclair - captain of the national team - said: 'We joke that we don't deserve Quinn. They're that good of a person.'

Canadian player Quinn has become the first out trans and non-binary player to play at a FIFA World Cup

Speaking to the Toronto Star ahead of Fifa World Cup, Quinn emphasised how important this is given what is going on in the US in regards to trans and non-binary people.

'I think it is a scary time, for me,' they said. 'I think I do have a lot of points of privilege when entering this conversation, so I have to be mindful of that. But I think the reality is, it's scary.'
