

# Operator, I need an exit.

---

## Trans World Express

---

### Mission

Assist people under threat from fascism to migrate to safer communities by connecting people with resources to people in need.

### Vision

We ensure the freedom, safety and well-being of everyone having to flee and everyone helping them. Our solidarity transcends borders. We are one people.

### Scope

We can't help all the people who need help from the get go. We need to focus on the people that we actually can help with the resources we have in the current situation. Right now, this is trans people in the US with the means to relocate to a different country and a chance to qualify for residency, by providing them with the information they need, including contacts to support groups and job networks. This scope will grow as our resources, capabilities and networks grow.

## Visa and immigration information
